

The first step to drawing my snowman is to pick the circle drawing tool and draw three circles with it. When you are drawing the three circles remember the bottom circle is the largest the middle circles the second largest circle and the top circle is the smallest. Then change your tool to the pencil. Once you do this outline all the circles in black. Then select red on pencil. Next draw a red line on the right side of the snowman with 3 fingers do the same thing to the other side but make this arm a little shorter. Then select lavender and draw a scarf with 2 ends. Next select maroon and draw a hat that is leaning to the side. Next go to the stamps and pick the filled in flower in yellow. Then with the stamp make 3 flowers so it looks like the 3 points of a triangle that are unconnected. Then select the color green for the flower stamp and put them like an upside down triangle. Then pick the color navy blue and put two flowers next to each other in the middle of the other colors. Next select hot pink and put that flower stamp on top of the navy blue flowers. These flowers are all on the right side of the hat. Now take the hot pink flower and stamp it on the scarf were the two ends start to go down the body. Change the of the flower to lime green put two stamps on the middle ball leave enough space for a flower in between the two flowers. Then stamp five flowers on the bottom ball again leave enough space for a flower in between these flowers. Next select the unfilled flower stamp leave the color lime green and put two in between the ones on the middle ball. Next do the same thing to the bottom ball except do four flowers in between the other flowers. Next select the drawing tool with bright red draw a smile with a tongue on the top ball. Then select the light blue green and make two dots to make the eyes. Then pick black and put a dot in the middle of both eyes. Finally make one dot in the middle of the top ball for the nose. This is how you draw my snowman.
